

Table of Contents

Section 1: Primary Injury

1.1

Assessment of the patient with traumatic facial injury

1.2

Radiological evaluation of the craniofacial skeleton

1.3

Intraoperative imaging and postoperative quality control

1.4

Primary repair soft tissue injury & soft tissue defects

1.5

Traumatic facial nerve injury

1.6

Diagnosis and Multi-Modality Management of Skull Base Fractures and Cerebrospinal Fluid (CSF) Leaks

1.7

Frontal bone and frontal sinus

1.8

Endoscopic Approaches to Frontal and Maxillary Sinus Fractures

1.9

Orbital fractures

1.10

Nasal fractures

1.11

NOE fractures

1.12

Orbital Zygomaticomaxillary Complex Fractures

1.13

Le Fort Fractures

1.14

Mandible fractures

1.15

Fractures of the Condylar Process of the Mandible

1.16

Complications of mandibular fractures

1.17

Temporal bone

1.18

Dental injury; dento-alveolar and segmental fractures of the mandible and maxilla

1.19

Management of panfacial fractures

1.20

Characteristics of Ballistic and Blast Injuries

1.21

Geriatric and edentulous maxillary and mandibular fractures

Section 2: Pediatric Facial Injury

2.1

Pediatric skull fractures

2.2

Superior Pediatric Orbital and Frontal Skull Fractures

2.3

Pediatric orbital fractures

2.4

Pediatric midface fractures

2.5

Pediatric Mandible Fractures

Section 3: Secondary Reconstruction and Restoration

3.1

Reconstruction of Full Thickness Fronto-Cranial Defects

3.2

Pediatric cranial reconstruction

3.3

Secondary reconstruction of facial soft tissue injury and defects

3.4

Ocular considerations: blink, ectropion, entropion, ocular lubrication, DCR

3.5

Secondary Nasoethmoid Fracture Repair

3.6

Post-traumatic nasal deformities

3.7

Secondary orbital reconstruction

3.8

Secondary midfacial reconstruction

3.9

Secondary Osteotomies of the Maxilla and Mandible, and Management of Occlusion

3.10

Secondary traumatic TMJ reconstruction

3.11

Maxillofacial prosthodontics

3.12

Custom craniofacial implants

3.13

Secondary microvascular reconstruction of the traumatic facial injury

3.14

Virtual surgical planning

3.15

Post-traumatic facial pain

3.16

Secondary nerve reconstruction

3.17

Facial transplantation
