

Table of contents

Section I Introduction

1 Dissection Laboratory Materials, Tools and Techniques

Section II Back

2 Muscles of the Back and Scapula

3 Suboccipital Triangle and Spinal Cord

Section III Thorax

4 Pectoral Region and Breast

5 Lungs, Removal of Heart, and Posterior Mediastinum

6 Heart

Section IV Upper Limb

7 Axilla and Arm

8 Forearm (Antebrachium)

9 Hand

Section V Abdomen

10 Anterior Abdominal Wall and Inguinal Region

11 Peritoneal Cavity

12 Gastrointestinal Tract

13 Posterior Abdominal Wall

Section VI Pelvis and Perineum

14 Pelvis

15 Perineum

Section VII Lower Limb

16 Gluteal Region

17 Thigh and Leg

18 Leg and Ankle

19 Foot

Section VIII Head and Neck

20 Neck

21 Face

22 Infratemporal Fossa

23 Calvaria, Dural Venous Sinuses, Brain, and Cranial Nerves

24 Orbit

25 Ear

26 Nasal Cavity
27 Pharynx and Oral Cavity
28 Larynx
29 Retropharyngeal Region and Pharynx
Clinical Applications
